

2023 TEXAS FARM BUREAU SUMMER AG ACADEMIES

Summer Ag Academies are regionalized hands-on teacher professional development. Summer Ag Academies are FREE! Get to know resources available to you through Texas Farm Bureau's Agriculture in the Classroom program and other programs.

The focus is on science in these one-day academies, but they are also cross-curricular. The theme of the first four 2023 Summer Ag Academies is Technology in Agriculture. Resource material is free, and CPE hours will be given to attendees for the time spent at the Summer Ag Academy.
