

TEXAS FARM BUREAU AG MECHANICS GRANT PROGRAM

Program Overview:

Texas Farm Bureau's Ag Mechanics Grant Program aims to provide agricultural mechanical and metal technologies educators with additional resources to increase their students Agricultural Mechanics and Metal Technology skills.

Eligibility Requirements:

Any certified, active 9th-12th grade teacher (addressing Agriculture Mechanics and Metal Technologies, Agriculture Structures Design and Fabrication, Agriculture Equipment Design and Fabrication, and/or Agricultural Power Systems TEKS) in a public school.

OR

9th-12th grade teacher (addressing Agriculture Mechanics and Metal Technologies, Agriculture Structures Design and Fabrication, Agriculture Equipment Design and Fabrication, and/or Agricultural Power Systems TEKS) in an accredited non-public secondary educational institution.

How will grants be awarded?

Ten \$2,500 grants will be awarded from Texas Farm Bureau. A panel of judges will review the applications and select the recipients.

Grant funds will be paid to the public school or accredited non-public secondary educational institution named in the grant application. Grant funds will not be paid to an individual.

Application Details:

Applications must be submitted online by Aug. 1, 2024.

The link to the application is available at texasfarmbureau.org/youth/youth-opportunities.

Grant award winners will be announced in late August.
