

TEXAS FARM BUREAU®

FORESTRY

Activity Book

This book belongs to:

Label the parts of a mature loblolly pine tree!

Word bank

branches

cone

trunk

leaves/needles

Illustration Copyright © Robert O'Brien

Fun Fact!

The loblolly pine tree is the most common type of pine tree in Texas!

Use your imagination.

Draw your own forest below.

Did you know?

To determine the age of the tree, count the rings in the tree trunk.

You try!

Count the rings to determine how old the tree is.

How old is the tree?

Draw your own tree trunk.

Use the space to the right to complete your answers below.

1) What shape is the trunk?

Draw the trunk.

2) What color is the trunk?

_____ Color it.

3) How old is your tree?

In a separate drawing, draw the correct number of rings.

Draw a tree where you think the most forests are in Texas.

What area did you choose?

Why?

Why are trees important?

Grab a crayon and in the space below, write two reasons trees are important. **Fun fact:** Some of the wax used to make crayons comes from the wood of trees.

1. _____

2. _____

Extra challenge:

Did you know it takes around 20 years for a pine tree to be fully grown?

If a tree was planted in the year 2020, when will it be fully grown?
